

This is a story best told in Before and After pictures. The young lady had rotten teeth as a result of dental negligence as a child. Her mouth condition was hurting her socially and emotionally, inhibiting her confidence to meet new people and to date. It caused problems eating and was a handicap in seeking employment. Her beautiful smile in the after picture tells how happy she is with her partial, which the SVdP Society provided with your help. Her life path is surely changed for the good as a result of this gift.
